A total of 250 school districts from the U.S. and Canada are being honored by the College Board with placement on the 10th Annual AP District Honor Roll. These districts were selected for simultaneously increasing access to Advanced Placement course work while increasing the percentage of students earning scores of 3 or higher on AP Exams.

This is the 7th consecutive year that MCVTS has received this recognition for the successful expansion of our AP course offerings while improving our students’ performance and participation in Advanced Placement courses.

MCVTS BUSINESS PARTNERSHIP AWARD

David Baron, Plant Manager at Gilchrist & Soames has been working with the MCVTS Cooperative Education Coordinators and Instructor of Pre-Engineering and Manufacturing program for the past two years. Dave has been an avid supporter of our PE&M program and a leader on the Advisory Committee. Dave and our MCVTS team have designed a unique Manufacturing paid Mentorship program for 12th grade students. Each student works in the afternoon at Gilchrist & Soames for three weeks, three hours per day (total of 45 hours) to experience the employment opportunities in a very busy soap manufacturing business. Dave is a conscientious Mentor that continually communicates with the program instructor to review each student’s strengths and career interests. The duties have ranged from line mechanic duties, to optimizing automation, re-programming pieces on the manufacturing line to updating Standard Operating Procedures (SOPs) and more.

MCVTS BUSINESS PARTNERSHIP AWARD - CONTINUED

The collaborative program began in November of 2018 and eleven students participated during that school year. Currently, thirteen students will get a similar experience. Dave has since hired three of the program graduates in the past year to work full-time at the company's two local sites, Sayreville and Rahway so far, and will be looking for more in the upcoming years. He states "the program students are better prepared to work for us than most of the applicants coming from the outside. MCVTS trains the students in electricity and electronics, hydraulics, pneumatics, PLCs and more which is exactly what we need. Each student comes to the Mentorship program with completed OSHA 10 training and an eagerness to apply their knowledge in a real world situation". The company executives were hesitant at first to take Dave's recommendation to implement this program, since many of the students were not eighteen years old yet. However, after understanding that these students are very well trained in the technical skills needed in manufacturing and safety, there is now strong support across the company for the program and its success. Dave and his colleagues have since met with MCVTS administration to discuss additional opportunities to train existing Gilchrist & Soames employees in the same curriculum as in the Pre-Engineering and Manufacturing program.

Dave is to be commended for his forward thinking, being an outstanding Mentor and for his collaborative efforts with our MCVTS team and students. Therefore, he is our Business Partner of the Year!
